# **Summit Center Sign Program**

# Approved by the Snake River Planning Commission February 18, 2010 Revised May 14, 2015

## A. General Provisions

# I. Sign Materials

Unless otherwise stated, signs shall be composed of materials that complement the architecture and/or materials used in the building associated with the sign. Signs may be wood or sandblasted foam resembling wood, and shall be of a professional quality.

# II. Sign Colors

Unless otherwise stated in this Sign Program or approved by the Planning Department, the sign colors shall complement the exterior colors found in the Summit Center. Typically, colors will be a background of Black Forest, lettering Golden Buff, and a border of Farmhouse. Similar alternate colors may be approved by the Planning Department.

## III. Sign Definitions

All sign definitions are per the Summit County Land Use and Development Code ("Code").

## IV. Lighting Standards

Whenever exterior lighting is provided, it shall be designed and installed so that direct rays are confined to the sign with no off-site glare. The illumination shall be downcast and bright enough to make the sign clearly legible without producing glare, and shall not interfere with motorist vision.

# V. Relationship to Sign Regulations of the Code

The following sections of the Sign Regulations contained in Chapter 9 of the Code shall prevail in regards to any matters pertaining to signage in the Summit Center: 1) Authority; 2) Applicability; 3) Sign Permits; 4) Sign Programs; 5) Exempt Signs; 6) Political Campaign Signs; 7) Ideological Signs; 8) Review Procedures for Sign Permits; 9) Review Procedures for Sign Programs; 10) Prohibited Signs and 10) Administration and Enforcement.

#### VI. Sign Permit Review

All signs, except those exempted by the Code, must be approved for and receive a sign permit with the County.

#### VII. Regulatory Signs

Signs required by the Manual for the Uniform Control of Traffic Control Devices are permitted. Directional and regulatory signs for common public amenities through the site are permitted, as well as signs to designate parking or delivery zones.

#### VIII. Address Lettering

Numbers and letters for addresses shall be a minimum of five (5) inches high with a minimum stroke width of one-half (.5) inch and shall contrast with the background.

#### IX. Sign Locations

The Tenant Identification Monument Sign shall be located on the south side of the entrance in a location not to obstruct the view exiting the Summit Center. The four (4) ground mounted Tenant Identification signs shall be placed in the landscape planter in front of the businesses to identify two (2) businesses per sign. This is to be located between the parking area and the building. The two (2)

wall mounted signs per business shall be centered between the light fixtures of the facia of the building. In instances where vegetation obstructs the wall mounted location on the South facade as verified by the Planning Department, wall signs may be hung from the wall beam as to not interfere with pedestrian movements and overhead clearance. No signs will be permitted on the West side of the building.

# B. Sign Types

# I. Sign Type A: Entry/ Tenant Directory Sign

a. <u>Location:</u> To be located a minimum of five (5) feet from road right-of-way
